Re: U.S. Patent Application Serial No. 10/646,525 for CONTINUOUS
DIRECT-WRITE OPTICAL LITHOGRAPHY

Dear Commissioner:

We request a telephone interview with the Examiner and Primary Examiner for this application. We have reviewed the Office Action mailed August 21, 2006, and believe that the Examiner has not understood our previous response and erred procedurally in the Office Action. The purpose of the interview is to direct the Examiner to our previous response, which highlights the differences between the cited art and the claims in this application, to gain an understanding of why the Examiner believes those arguments do not overcome the cited art, and to address the procedural errors in the Office Action.

Please call me to arrange a convenient interview time. John Macaulay, a consultant for the owner of this application, and I will attend the telephone interview. Any time after 9 A.M. Pacific time on a Friday or after 12:30 P.M. Pacific time on a Wednesday work best for our schedules.

The reasons for requesting the interview are summarized below.

1. The Examiner has not responded to several of Applicant's arguments which traverse the previous rejection of claims.

In paragraph 9 of the Office Action dated August 21, 2006 the Examiner states:

PETITION FOR WITHDRAWAL OF PREMATURE FINAL REJECTION

Hon. Commissioner:

On August 21, 2006, the Office mailed a final rejection in this application. On October 5, 2006, Applicant faxed a request, addressed to both the Examiner and the Primary Examiner, for a telephone interview to discuss the premature final rejection of claims, among other issues. See attachment. Applicant's attorney also left a voicemail message for the Examiner, who has not yet responded. The Examiner's supervisor did respond to a voicemail message. The Primary Examiner then contacted Applicant's attorney on October 20, 2006, but indicated that the final rejection is in the discretion of the Examiner and could not be withdrawn by the Primary Examiner. The Primary Examiner indicated she would ask the Examiner to contact Applicant's attorney today, but no contact has been received today. Therefore, Applicant hereby petitions for withdrawal of the premature final rejection under 37 CFR §1.181(a)(1) and MPEP § 1002.02(c)(3)(a).

Premature Final Rejection.

The Examiner's final rejection of unamended independent claims 23 and 82, and of claims 24-35, 37-42, 80-81, 83-95 which depend on claims 23 and 82, is based on new grounds and thus is improper under Patent Office procedure. See MPEP §706.07(a). The Examiner has introduced new grounds for rejecting independent claims 23 and 82, and the various dependent claims. The newly cited art is U.S. Patent No. 6,229,649 to Woods et al., which the Examiner cited for the first time in the latest Office Action. These claims are now rejected as unpatentable over Jain et al. in view of Woods et al. The Examiner clearly identifies the rejection to be on new grounds. See paragraph 9 of the Office Action dated August 21, 2006. A final rejection should not have been issued because these claims were not amended in Applicant's response to the previous Office Action, and Applicant did not submit the Woods et al. reference in an Information Disclosure Statement. See MPEP §706.07(a).
